

**Performance Evaluation of the President Committee
Annual Report
November, 2014**

Due to the mid-year appointments of the board, we have had only one meeting on November 5, 2014, at the Center for Technology, Innovation and Enterprise. All members and the chair of the board were in attendance. The committee reviewed the process and the forms used for the evaluation. The committee will recommend to the full board that we would not do a mid-year evaluation of the President this year, due to the late appointments of the board and the short time everyone has served on the board. The committee will be working toward understanding Dr. McCall's goals for Dr. Hughes and additional goals the board may want to set. The committee will be in the process of updating evaluation forms along with support materials needed for the future evaluations.

Again, due to the mid-year appointments, the board at the June 7, 2014, meeting approved the recommendation of Dr. McCall to just send in all the evaluations of the past board members to him directly for the 2013-2014 Dr. Hughes evaluation.

Members:

Ken Paul, Committee Chair

Dr. Julia Smith-Morrow

DaShawntae Durham

Dr. Amber Decker
