## News Media Clips

This spreadsheet shows known media clips for Gateway between November 7, 2014 and March 17, 2015. It does not include radio coverage. The data is tracked by Gateway and KCTCS on an internal Media Tracking System on the KCTCS intranet available to employees.

KCTCS requires the colleges to list all known clips from all media editions. That is why it may appear that there are duplicate entries of the same article. The articles will have appeared in different editions, e.g., both online and in print, because the different editions are generally thought to have different readership. The college assigns ratings. Articles that merely mention Gateway, e.g., as a location for a meeting, are assigned a neutral rating.
